Dear Friend,

During the month of June we are given the chance to honor our fathers and all the men who have been an inspiration in our lives.

This month also gives me a chance to thank all the men in my district. You are the biggest source of strength for a child. For daughters, fathers are the first men they adore. For sons, their fathers are the strongest person they know and someone they aspire to emulate. Thank you for being this great figure in our world. We are all better people because of you. May God bless you always.

Lupac
